To Whom It May Concern:

The beach area of the Water Park at West Edmonton Mall came due for renewal in late 1999. The replacement product had to be effective in several areas and we were directed to Protect-All Flooring manufactured by Oscoda Plastics. Lea-Der Coatings, the Canadian Distributor and a certified installer of Protect-All Flooring demonstrated that this product would fit our requirements.

Protect-All Flooring was installed in the beach area in January 2000 with minimal disruption to the water park and has proven to be an excellent decision. With a choice of colours, texture and finish this aesthetically pleasing flooring is a cost effective, low down time easy install solution. The quarter inch thick vinyl mat has the durability needed for the very demanding environment created in an indoor water park. Since 2000, we have installed Protect-All Flooring in areas of the Ice Arena, Party Rooms, Flamingo Pool, Bars and other attractions proving the diverse functionality of this flooring.

Protect-All matting is an excellent flooring solution to long term flooring needs.
