

RETAIL

Protect-All® flooring is a versatile and resilient solution crafted to endure the demands of bustling retail spaces. From small boutiques to sprawling shopping centers, retail flooring is constantly subjected to high foot traffic, heavy displays and at times the weight of large fixtures and equipment.

Protect-All addresses these challenges with a durable, nonporous design that can handle weight and wear with ease, providing a long-lasting, visually appealing surface that remains attractive and functional over time. With certification from the National Floor Safety Institute for high traction, this flooring boosts footing confidence, creating a safer shopping experience for customers and staff alike.

Long shifts on hard floors can be taxing for retail staff so the comfortable underfoot feel of this flooring adds a subtle layer of cushioning that helps reduce fatigue. This is especially valuable in large retail settings like grocery stores, department stores or other environments where employees and shoppers spend extended periods on their feet. The flooring not only enhances comfort but the multi-colored options provide a range of aesthetic choices, making it easy to align with a store's brand and interior design goals. The multi-colored design also serves a practical purpose: it effectively hides the appearance of dirt and traffic wear between cleanings, helping maintain a fresh look throughout the day.

American Made. Made To Last.

For more than 30 years, Protect-All has been producing our vinyl flooring right here in America. From concept to completion, we remain committed to providing you with high-quality, durable commercial flooring solutions designed to stand the test of time and are backed by a 10-year warranty.

Quality Surpassing Quarry Tile

While quarry tile has a long history of use, exploring alternative options might reveal more cost-effective and improved solutions. Protect-All's larger sheet sizes help reduce the number of grout lines when compared to quarry tile, which reduces routine maintenance costs. Its unique design helps reduce leg fatigue and boosts footing confidence in slip-prone areas.

Outperform Epoxy

Protect-All stands the test of time without peeling, chipping or showing wear because it is made of 100% heavy-duty vinyl, meaning there is no wear layer. And it provides comfort underfoot by reducing leg fatigue in demanding environments. Along with being easily cleaned and maintained, its unique formulation stands up to the most commonly used disinfectant products.

Sizes

5' x 8' Sheets

5' x 5' Tile

2' x 2' Tile

Opting for durability doesn't mean compromising on design. Protect-All offers endless opportunities for customization with our Protect-All Designer Series® line of flooring solutions, so you can have a floor that looks as good as it performs. High-quality, beautiful and functional flooring delivering exceptional value so you can put your best foot forward. That's Protect-All.
